

An Overview of Patellar Luxation: Diagnosis and Treatment

Time: 19:30 UK Time
Date: 27/04/2023

[Click here to sign up](#)

Vi are proud to present a live interactive webinar with expert speaker, Orthopaedic Surgeon, **Nicci Meadows BVetMed CertAVP (GSAS) MRCVS**. This webinar will give an overview of the topic of Patellar Luxation and will cover:

- Pathophysiology of Patellar Luxation
- Pre-operative Assessment
- Surgical Treatment Options
- Wedge or Block Trochlear Sulcoplasty
- Tibial Tuberosity Transposition (TTT)
- Suggested Surgical Equipment
- Post Surgical Considerations
- Complications
- Case Studies

This interactive webinar is suitable for surgeons new to these procedures or requiring a refresher, and all other members of the veterinary practice team are also welcome to attend.

Expert Speaker: Nicci Meadows BVetMed CertAVP (GSAS) MRCVS graduated from the Royal Veterinary College in 2006 and spent six years in general small animal practice before becoming an RCVS Recognised Advanced Practitioner in 2013 having completed her RCVS Small Animal Surgery certificate. Nicci has worked as a Peripatetic Orthopaedic surgeon since 2015 providing an in-house referral service to primary care practices. During this time, Nicci has also provided locum Orthopaedic surgeon cover for a number of large specialist referral hospitals including Liverpool University Small Animal Teaching Hospital.

This webinar will be conducted via Zoom and **attendance certificates will be issued** to all those who attend live. The session will be approximately 90 minutes and will include the opportunity for Q&A.
